Organic Spray

City of Yachats
PERMIT FOR RIPARIAN BUFFER VEGETATION REMOVAL OR PRUNING

Pursuant to Yachats Municipal Code 9.52.070 an executed permit is required before any person undertakes removal or pruning in a riparian buffer. Failure to complete the application form and secure an executed permit approval in advance is a violation of City Code. A copy of an approved permit shall be in the possession of any person performing work thereunder for review by any person. Also, a copy shall be published in the Yachats Document Library.

Applicant QWHA Signature Linda Tueto-Johnson 7/13/10

Address PO Box 34, Yachats, OR 97498

Telephone # 541-547-3154 Email LTJEnterprises@peak.org

Property Owner Signature L Johnson for QWHA Board of Directors

Address Same as above

Telephone # Same as above Email

Map & Tax Lot # 14-12-26CC/6000, 7000, 14-12-26CD/3400, 4100

Attach site plan or landscape plan in a format approved by City staff showing specific locations of vegetation to be removed or pruned.

Description of Vegetation to be Removed and Replaced:

Identify plant species to be removed: see attached

see attached

Describe methods for removing vegetation: see attached – organic "earth friendly" weed + grass killer spray

Identify plant species and quantity to be planted: NONE

Duration of Work: Beginning Date: 7/14/10 End Date: 8/31/10
(Duration of work may not exceed 30 days. Exception: If the permit is for removal of invasive plants, the permit may be valid for up to one year if accompanied by a plan for replacement planting.)

Description of Vegetation to be Pruned:

Identify plant species to be pruned: NONE

Duration of Work: Beginning Date: _____ End Date: _____
(Duration of work may not exceed 30 days.)

Application received _____ Disposition: ☐ approved ☐ not approved

City Planner or City Public Works Director Date

Notes:

s:\forms\riparian buffer vegetation permit form draft june 09.doc

Rec'd 7/13/10 from Linda Tueto Johnson

Plant species to be removed: weeds within 5' wide walking path prior to spreading new gravel to maintain path.

Method for removing vegetation: "Worry Free Organic Weed & Grass Killer" **or** "Burn Out II Organic Weed and Grass Killer" spray (Lincoln County approved pesticides and OMRI listed organic pesticides) within the 5' wide path zone only. Burning the weeds in the path, or using white vinegar has not been successful in the past for removing the noxious weeds within the 5' wide walking path.

Please Note: The walking path within Quiet Water was approved specifically with the Quiet Water PUD and also as part of the Yachats Comprehensive Land Use Plan and it's recent exceptions within the revised Comprehensive Plan. Ordinance 202 implicitly provides Quiet Water with the right to maintain the walking path. Larry Lewis and the City have given Quiet Water assurances that Quiet Water has the right to maintain the walking path as it has been maintained in the past.
