

Recycling Report

By Katy Koestler

Thanks to everyone for taking the time to recycle. We have 4 types of bins or containers.

- The large green bins are for household waste.
- The blue bins are for recycling and the larger blue bin in LCA 3 is for larger pieces of cardboard and overflow. It is important to flatten ALL boxes. Rinse tin and aluminum cans, plastic bottles and jugs. NO plastic bags
- Red container is for glass, cans, and plastic bottles that can be redeemed for the deposit paid at purchase
- Round container or basket is for wine bottles, and all other non-deposit glass bottles. All bottles should be rinsed.

Styrofoam, plastic cups and utensils, and waxed cardboard go in the green bin with household waste.

Do not place construction waste, furniture, or appliances at the curb or in any bin. This items must be hauled to the Dahl transfer station in Waldport.

Thanks again ... and Dahl Recycling thanks you too.
