

Ripples

Quiet Water Homeowners Association Newsletter

EXTRA! August 2013 EXTRA!

Needed: "Pathfinders"

Joan Johnson, Site Manager

Doug and I would love to have a group of volunteers who--for love of the path--are willing to keep grass and weeds off the surface of the path along the river. You could adopt a section or, if you wish, just "pull as you go."

We are attempting to clean it up now, and we know that with lots of help we will be able to keep it looking nice. It is amazing how quickly weeds and grasses creep back onto this path. We will do the trimming on the sides of the path so that those walking the path will not have to brush against bushes, etc. Doug has permission from the City to do this, but we will need to direct any of this type of trimming activity.

We have always been proud of the volunteers who so generously give of their time to keep Quiet Water looking nice. Most of their efforts are done so quietly that members are not aware of how much of this activity goes on day to day. Thanks to all. Any questions . . . call or e-mail Doug and Joan.

Swimming Lessons at the Quiet Water Pool

As you know from the June issue, Quiet Water made its pool available to YYFAP (Yachats Youth and Family Activities Program) for Water Safety/Swim Classes for children ages 6-12 during the month of July. Quiet Water property owner Mary Aebi was the Red Cross Certified Instructor. Mary was assisted by Quiet Water property owner Joanne Kittel and by Pam Luderitz of YYFAP.

According to Joanne, “It was a huge success.” And Alice Beck, Executive Director at YYFAP, has this to say, “It was a great program and we so appreciate the partnership. The kids really benefited from learning water skills. Thank you!”

Here are a few photos from Ken Aebi.
